DWA_03.5 Knowledge Check_DWA3.2

_____

1. User story(ies) in Gherkin syntax for the "+" button.

- As a user, when I click the add button, I expect the displayed number to increase by 1.
- As a user, when the number reaches the maximum value (15), I expect the add button to become disabled, indicating that I cannot add further.
- As a user, if the add button was previously disabled and I increase the number, I expect the subtract button to become enabled, indicating that I can now subtract from the number.

_____

2. User story(ies) in Gherkin syntax for the "-" button.

- As a user, when I click the subtract button, I expect the displayed number to decrease by 1.
- As a user, when the number reaches the minimum value (-5), I expect the subtract button to become disabled, indicating that I cannot subtract further.
- As a user, if the subtract button was previously disabled and I decrease the number, I expect the add button to become enabled, indicating that I can now add to the number.
